- The co-ownership is proactively managed, with work planning based on a reserve fund study and a maintenance log prepared by an independent engineering firm.- At the March 2026 annual general meeting, it was resolved that maintenance and corrective work will be carried out (roof, masonry, terraces, water infiltration) to ensure the long-term integrity of the building.- A special assessment has been implemented to carry out the priority work, and the sellers will assume their full share, being \$7,092.- New buyers will benefit from the roof, masonry, and terrace work, adding new components to the property without having to assume the associated costs.- The unit comes with one indoor private parking space as well as a storage space in the garage (locker). Access to a shared bicycle storage area.- Strategically located just a 6-minute walk (4-minute drive) from Place de la Grande Marguerite, offering a wide range of services and amenities: grocery stores, pharmacies, banks, gas stations, cafés and restaurants, daycares, beauty and health services, SAQ, and more!
